Success

The logo features the words "Key to" in a bold, black, sans-serif font, with the "o" in "to" containing a stylized key icon. Below this, the word "Success" is written in a bold, red, sans-serif font.

5 Elements for boosting the Bureaucracy Reforms

Inter-Institutional Synergy as Part of Accelerating Bureaucratic Reforms

ESTABLISHING APPLICATION TO PROVIDE INFORMATION ON CASE HANDLING PROGRESS USING – SPPT TI

Conducted among the Attorney General's Office, Indonesian Police, The Supreme Court of Indonesia, Directorate General of Penitentiary, National Planning Bureau, Corruption Eradication Commission , State Cyber Cryptography Agency

What is SPPT TI

SPPT TI (Sistem Penanganan Perkara Terpadu Berbasis Teknologi Informasi) is an integrated criminal case handling system on the basis of information technology, which is an inter-agencies collaboration to provide a real-time data of cases handling progress in every level of criminal justice systems in Indonesia.

This effort has been carried out to enlighten public as well as the relevant agencies on the performances transparency (adjudication of general crime cases), in order to achieve the objectives of national development of a better public services.

Implementation objectives of SPPT TI at the Attorney General's Office (Quarterly)

To build Bureaucratic Reform in an institution is as climbing a bamboo ladder that has already 2 (two) pillars. To climb each stage to reach the goal; however, requires assembling each toehold to be attached between the two poles, from the bottom to the top of the ladder. It is a difficult task; nonetheless, we have to carry it out because our main commitment is to provide justice for Indonesian people by using reforms in establishing a distinguished and accountable law enforcement institution.

Thank You
